

EL Richie - BIO

El Richie is a young bodacious Music Artist, songwriter and upcoming producer. He began his music career in the Christian rap group "Pastor's kids aka PKs" in 2017. His unique taste and style are inspired by artists such as Kendrick Lamar, Lecrae and Drake. He was fascinated in the ways these artists played with words to portray their message across. While in the group Pks, he co-wrote a number of singles alongside his group members such as the hit single "sinners" and "pray". After 2 years, El Richie decided to kickstart a solo career and focus on developing his style of music. Alongside this, he began producing his own beats. In October 2019, El Richie released his solo EP album "Triumphant", receiving thousands of streams across all platforms.

During the span of his career, he has performed in London, Glasgow, the Edinburgh fringe and IYS on numerous occasions.
